Latin I Workbook

Pars I

FAMILIA

ROMANA

How to use the Lingua Latina Workbook Pages

Each week has 5 sessions. If you plan to complete Latin I in one year, you will want to complete all 5 sessions in one week, one per day. If you are working at your own pace, you can decide how many you would like to complete each day.

Sessions 1 - 4

For the first four sessions of the week, you will complete the following activities (all these activities are also listed sequentially on the Moodle page):

1. Sing along and take the practice quiz under the song to prepare for this week's grammar quiz. (There is a checkbox at the top of the workbook page for the first 3 activities).
2. Participate in the conversation to learn some of the new vocabulary and grammar for this lesson.
3. Listen to and recite the lines assigned to each Session (indicated at the top right of each workbook page). To build your Latin fluency, remember that you need to read every word out loud.
4. Translate the lines in the left column of your workbook without using any resources (no dictionaries, no online resources, etc.). Use the margin notes and context clues in your book to guess the meanings of new words. If you cannot figure out the meaning of the word in this way, leave a blank or simply write the Latin word.
5. Correct your English translation by listening to the translation. Add any unknown words to your "Words to Know" list at the bottom of your workbook page.
6. After correcting your English translation, close your book and translate it back into Latin on the right side of the workbook page. When you get stuck, you can look back at the book, but try to do it from memory.
7. Correct your reverse translation. Use a different color pen to correct the words and endings that you get wrong. Remember, word order doesn't matter, so only fix incorrect words and endings.

Session 5

1. Read the entire lesson aloud in Latin.
2. Study the flash card set linked on Moodle until you can do them perfectly (Latin to English, English to Latin, and Latin to Latin).
3. Watch the exercise tutorial (if needed).
4. Complete the grammar exercise. Some weeks there are optional grammar exercises which you may also complete.

Workbook Page Example

Daily Session Instructions

Each day, open the moodle website, your textbook, and your workbook to the Chapter, Lesson, and Session indicated on the syllabus and complete the following as indicated on the website and workbook page:

1. Website: Sing along with the song and take the practice quiz located beneath the song to memorize the grammar chart.

2. Textbook: Open your *Lingua Latina* textbook and recite the lines assigned to this Session (for example, the Workbook says that for Session 1 you need to recite lines 1-4). To build your Latin fluency, remember that you need to read every word out loud, even if you're alone in your room and your parents think that you're going crazy!

3. Workbook: Translate the lines assigned to this session in your workbook without using any resources (no dictionaries, no online resources). Use the margin notes and context to guess the meanings of words which you do not know.

4. Website: Participate in the conversation for the assigned session and learn to use the new vocabulary and grammar.

5. Website: Use the audio translation of Chapter 1 to correct your English translation. Create notes for any mistakes that you made.

6. Workbook: After correcting your translation, translate it back into Latin.

When you get stuck, you can look back at the book, but try to do it from memory. The words, phrases, and endings that you get wrong should be written in the note section of your worksheet. Remember, word order doesn't matter - only fix incorrect words and endings.
